

AMAZER

Storage Metal
Water Heater

Capacity : 10L
Color : Ivory Red

Incoloy 800 heating element with enamel coating
Highly resistive to corrosion giving it a longer life

Dual safety feature
With automatic thermal cutoff & thermostat

Magnesium Anode
To help increase life of Storage Tank

High density CFC free Polyurethane Foam (PUF) insulation
For energy efficiency and to store hot water for longer duration

Durable steel tank
Single weld line tank made of ultra thick superior cold rolled steel

Adjustable Thermostat
All weather temperature setting with maximum temperature of 75°C

Water tubes with whirl flow
No immediate direct contact between cold and hot water for faster heating

Multi functional safety valve
For protection against excessive pressure (> 8 bar), ideal for high rise buildings
